STAT 4. [] Met with James Flug, Legislative Assistant to Senator Edward Kennedy, and chatted briefly with him on his informal request of last week for a special meeting with Cord Meyer or a member of his staff to review the general problem areas under consideration in proposed congressional legislation for the follow on support of private organizations which have formerly been receiving Federal assistance in their overseas activities. Mr. Flug was agreeable to the suggestion that with the release of the Katzenbach report yesterday and the fact that the Subcommittee make-up has not yet been finalized that we put this request on the "back burner" somewhat indefinitely.

STAT 5. [] In keeping with the recommendation of the Office of Logistics as passed on by [] I informed Ernest Baynard, Staff Assistant, House Subcommittee on Government Activities, that the repainting of our Headquarters building had been contracted out and monitored by the Government Services Administration. I suggested GSA as a point of contact for information concerning this matter. As anticipated, Mr. Baynard said he was aware of this but that he wanted to speak to an Agency employee knowledgeable of the facts since he has on record allegations by painters who worked on the job that only one coat of paint had been applied. I told Baynard that I believed that an informal meeting with him on this could be arranged and that we would see if we could meet with him tomorrow.

STAT 6. [] In the absence of Mr. Jay Sourwine, I informed Mr. Frank Schroeder, Chief Investigator, Senate Special Subcommittee on Internal Security, that we had no record on a publication by Che Gueverra entitled "The Destruction of the United States" which allegedly carries plans to carry out that destruction and is used for a text for advance students at the Technical Institute of Marxism in Havana. Information on this had been received from [] of WH Division.
